2. Citations and explanations (Rule 70.7)

1. Reference is made to the following documents:

D4: EP-A-1 130 132 (NIPPON PAINT CO LTD),
5 September 2001 (2001-09-05)

D5: DE 31 51 115 A (NIPPON KOKAN KK),
2 September 1982 (1982-09-02)

2. Documents D4 and D5 are both considered, to an equal extent, to be the closest prior art for the subject matter of claims 1 to 27.

Documents D4 and D5 disclose coating compositions and rinsing solutions that contain a film-forming agent, a metal chelate, a silane and silicic acid (see the claims in both documents).

The subject matter of claims 1 to 27 is novel over the disclosures of D4 and D5 (PCT Article 33(2)) because neither of these documents disclose the use of fluorine-containing silanes with fluorine-free silanes.

3.1 The problem solved by claims 1 to 27 can be seen as that of providing coating and rinsing processes which

ensure improved corrosion protection. The examples show that the problem is solved by the use of fluorine-containing silanes together with fluorine-free silanes.

There is nothing in the prior art to suggest that this problem might be solved by use of fluorine-containing silanes together with fluorine-free silanes. The subject matter of claims 1 to 27 is therefore non-obvious and inventive (PCT Article 33(3)).
